In consultation with the Council of Scientific and Industrial Research and other authorities concerned, they have now sanctioned the constitution of a Pool as provided in the Scheme annexed. The Council of Scientific and Industrial Research has been authorised to take all steps necessary for the implementation of the scheme.

ORDER

Ordered also that the resolution be published in the Gazette of India for general information.

Scheme for the Constitution of a Pool for Temporary Placement of Well Qualified Indian Scientists and Technologists Returning from Abroad

A Pool shall be constituted in the manner provided hereafter for temporary placement of well-qualified Indian scientists and technologists returning from abroad until they are absorbed in suitable posts on a, more or less, permanent basis. Persons with Indian qualifications who have outstanding academic records may also be considered for appointment but, as the Pool is intended primarily for facilitating the utilisation of Indian scientists and technologists abroad, the proportion of persons with Indian qualifications who may be thus appointed will not ordinarily exceed 25 per cent of the total number of posts in the Pool.

Persons appointed to the Pool will be attached to a Government department or a State industrial enterprise, national laboratory, university or scientific institution, or given some other work depending on the requirement, and their qualifications and experience. Officers of the Pool may also be seconded to a Government department or other organisations including industrial establishments in the private sector. When a person is thus seconded to some department or organisation for a period of a year or more, the resultant vacancy in the Pool may be filled up if there are qualified candidates in waiting.

2. Controlling authority.—The Council of Scientific and Industrial Research will be the controlling authority of the Pool. In all matters relating to the administration of the Pool, the Council will be advised by a committee constituted as follows:

- (1) Director-General of the Council of Scientific and Industrial Research—Chairman (*ex-officio*).
- (2), (3) & (4) Representatives of the Ministries of Home Affairs (Directorate of Manpower), Education and Scientific Research & Cultural Affairs.
- (5) to (15) One representative each of the Ministries of Commerce and Industry, Irrigation & Power, Defence, Railways, Health, Works, Housing & Supply, and of the Departments of Agriculture, Iron and Steel, Mines & Fuel, Transport & Communications.
- (16) A representative of the University Grants Commission.
- (17) & (18) Two non-officials representing private industry.

3. Emoluments of Pool officers.—A person appointed to the Pool will ordinarily be given a salary of Rs. 350/- p.m., but higher salary upto Rs. 600/- p.m. may be given on the recommendation of the Selection Committee, where necessary, taking into account the qualifications and experience of the candidate. In exceptional cases, a salary in excess of Rs. 600/- p.m. may be offered with the prior approval of the Government of India. This salary will continue to be paid till the officer secures a, more or less, permanent post, or is seconded to some other organisation. Officers who are seconded to other organisations will be paid the salary and allowances of the posts to which they are appointed in those organisations.

4. Authorised strength.—The authorised strength of the Pool at its initial constitution shall be 100. The strength may be reviewed as often as in found necessary.

5. Recruitment.—Selections for the Pool will be made in consultation with the Union Public Service Commission. A Special Recruitment Board will be set up consisting of:

- (1) The Chairman or a Member of the Union Public Service Commission—Chairman.
- (2) & (3) Representatives of the Ministry of Home Affairs, and the Council of Scientific and Industrial Research.
- (4) to (6) Scientists and technical men to be nominated each year in consultation with the Commission.

Vacancies in the Pool will be notified from time to time in India and abroad. The recruitment will not be restricted to candidates who apply for appointment to the Pool in response to such notices; and all persons enrolled in the special section of the National Register of Scientific and Technical Personnel for enrolment of Indian scientists and technologists abroad, and other persons with outstanding qualifications whose names may be brought to the notice of the Board by Indian Missions abroad, the Directorate of Manpower, or the Council of Scientific & Industrial Research, will be considered for appointment to the Pool.

6. A Standing Committee consisting of the Director-General of the Council of Scientific and Industrial Research and one representative each of the Ministries of Home Affairs, Scientific Research and Cultural Affairs, Commerce and Industry, Steel, Mines & Fuel, and Irrigation and Power, shall be constituted for allocation of duties to officers appointed to the Pool after their selection, and for reviewing at least once a quarter the position as regards their placement and utilisation so as to ensure that officers appointed to the Pool are fully utilised, and their placement on a, more or less, permanent basis is not delayed unduly. The Council of Scientific and Industrial Research will furnish a report regarding the working of the Pool once every six months to the Ministry of Home Affairs (Directorate of Manpower), and copies of this report will be sent to the Ministries concerned, and to the Union Public Service Commission for information.

7. Conditions of service.—The Council of Scientific and Industrial Research will frame regulations for regulating the conditions of service of Pool officers. Until such regulations are framed, Pool officers will be governed by the existing regulations which apply to temporary Class I officers of the Council of Scientific & Industrial Research.
